Date:	Thursday, April 2, 2026		
Event Number:	Bid 35 Alley, Road, Waterline Pjt South of 2nd btw Woodlawn & Greenwood 841201.02		
Question #	Type One Question per line Below		
Example Q1	How many inches in one foot?		
Example A1:	12 inches		
Q1.	With this being a dead end manhole in the alley I don't see any use on bypass pumping. Can this be removed from the project? You would only be pumping around 7 residential homes. Plus when doing alleys we have to truck every load around the block to be able to dig and backfill with pumps being in the middle of the alley that would be a substantial challenge.		
A1.	Bypass pumping will be needed as required to ensure conveyance of sewage and out of trench while work is being completed.
