Date:	Tuesday, May 12, 2026		
Event Number:	Bid 58 Clean, Repair, Paint Montara South Water Tower 281215.01		
Question #	Type One Question per line Below		
Example Q1	How many inches in one foot?		
Example A1:	12 inches		
Q1.	I understand the current substantial days is 75, but as we're working through our estimate, we're showing closer to 100 days completion. Can the SC days be extended to accommodate this schedule? If not we would have to add Liquidated Damages to our proposal and we'd like to remain as competitive as possible.		
A1.	The 75-day duration is the amount of time the tower can remain out-of-service; it is not the total allowable construction days for the project. Work may be performed ahead of the start date as long as it does not impact tower operation. Refer to Article 3 of the Project Requirements Section (Document 1000) of the specifications for more information.
